

# INDUSTRY DEDUCTIONS GUIDE

## EQUIPMENT

### Beds, bedding, pillow, etc.?

For sure! If you're a full service worker or are creating online content and buy these items for work purposes then you can claim them!

### What about sex toys and fetish gear?

YEP! Claim those babies!

### Electronics, computers, laptops, earbuds, cameras, webcams, phones, ring lights?

YES! For the percentage the item is used in running your business.

### Can I deduct chairs, mirrors, rugs, furniture, poles, hoops, aerial equipment?

YES! If an item can be considered a prop and is bought for work purposes, then they can be fully claimed. If the value of the item is over the instant asset write off amount, then it would need to be depreciated over the effective life. These types of purchases require a receipt and a documented reason purpose, such as for use in an in-call apartment or home of a full-service worker, for use in a show by a showgirl, in use in online content, for use in a club, etc.
